Ken Robinson

Do schools kill creativity?

Sir Ken Robinson makes an entertaining and profoundly moving case for creating an education system that nurtures (rather than undermines) creativity.

CIOB

THE CHARTERED INSTITUTE OF BUILDING

The CIOB International Innovation & Research (I&R) Awards celebrate achievement across the built environment, from academic research to industry innovation.

Innovation is at the heart of what we do at the CIOB, whether it's driving up standards, improving efficiency or helping our members achieve new levels of sustainability. We like to be challenged. We know that continually improving how we do things is vital to the health of our sector.

The awards play an important role by bringing together practitioners, education and training providers and policy makers. This interaction helps to develop, promote and implement new ideas and methods, which enables entrants to be on the forefront of excellence and innovative working.
